

Sheng Chen

Auckland, New Zealand · 022 607 6822 · chsh48@gmail.com · sheng.nz · [GitHub](#) · [LinkedIn](#)
Full-Stack Developer · Cloud Engineer · AWS Certified Solutions Architect – Associate

PROFESSIONAL SUMMARY

Full-stack developer with a Master of IT (First Class Honours, University of Auckland, 2026) and AWS Certified Solutions Architect – Associate. Experienced across TypeScript, React, Node.js, C#/.NET, and cloud-native AWS/Azure architectures.

Daily user of AI tools (Claude, GitHub Copilot) with critical judgement applied to validate outputs. Eight years in Chinese local government — managing water resources across 11 villages, then HR and payroll — built strong instincts for turning complex data into clear decisions for non-technical stakeholders. Available immediately on a valid three-year post-study open work visa.

CERTIFICATION

AWS Certified Solutions Architect – Associate · Amazon Web Services · Achieved 24 March 2026

TECHNICAL SKILLS

Languages: C, C#, Java, TypeScript, JavaScript, Python, SQL

Backend: .NET, Node.js, Spring Boot

Frontend: React, Svelte, Vue, Tailwind CSS

Cloud: AWS (Lambda, EC2, API Gateway, S3, Cognito, etc.), Azure Functions

Databases: MongoDB, DynamoDB, SQLite, Supabase, Firebase

AI & Tools: AWS Bedrock, GitHub Models, Claude, GitHub Copilot, LLM integration

Practices: CI/CD, RESTful API, JWT, Serverless, Git, Vitest, dotnet test

SOFTWARE DEVELOPMENT PROJECTS

AI-Powered Equipment Maintenance Dashboard · [Frontend Lead & AWS Solutions Architect](#)

Stack: React, TypeScript, Tailwind CSS, AWS Lambda, Amplify, DynamoDB, Bedrock, Cognito

- Architected a serverless predictive maintenance platform serving 700+ industrial engines with AWS Lambda and DynamoDB.
- Integrated AI maintenance recommendations via AWS Bedrock and Claude 3.5 Sonnet with a critical-thinking validation layer to filter unreliable outputs.
- Implemented role-based access control and optimised load times to under 2 seconds across all user roles.

Running Route Planner running.sheng.nz · [Full-Stack Developer](#)

Stack: React, TypeScript, Vite, Tailwind CSS, Mapbox GL JS, AWS Lambda (Node.js), Azure Functions (C# .NET 8), API Gateway, Vitest

- Dual serverless backend: AWS Lambda (Node.js) and Azure Functions (C# .NET 8 isolated worker).
- Parameterised route generation (distance, terrain, difficulty) with free-draw and road/trail snapping; GPX export compatible with Garmin Connect.
- Comprehensive unit test coverage across both backends using Vitest and dotnet test.

Auckland Weekend Planner weekend.sheng.nz · [Full-Stack Developer](#)

Stack: Next.js, TypeScript, Tailwind CSS, AWS Lambda, DynamoDB, API Gateway, Bedrock, S3, CloudFront

- Aggregates events from three Auckland sources with deduplication; Claude on Bedrock generates personalised itineraries filtered by audience, budget, and sub-region.
- Dynamic timeline with per-event swap/delete; real-time weather integration and content safety filtering.

Mortgage Broker Website · [Sole Developer – Independent Project](#)

Stack: React, TypeScript, Tailwind CSS, Vite, Supabase, EmailJS, GA4, Vercel

- Bilingual (Chinese/English) financial services site with secure admin CMS, role-based access control, and Supabase-backed dynamic content.
- Compliance-focused user flows with legal disclaimers, consent-gated forms, and multilingual SEO.

Havenly – Children's Emotional Support App havenly.sheng.nz · [Sole Developer – Independent Project](#)

Stack: React, TypeScript, Vite, CSS Modules, GitHub Models, Firebase

- Bilingual wellbeing app for children across three age modes with AI companion, crisis keyword detection, and guardrails against medical diagnosis.
- Garden reward system tied to daily check-in streaks; showcases responsible AI integration with human-in-loop safety design.

Buy or Bye – Household Management Web App · [Full-Stack Developer](#)

Stack: React, Node.js, MongoDB, Python, AI/ML

- AI-powered household management with OCR receipt processing, real-time expense analytics, and ML-based purchase recommendations via Python pipeline.
- Led authentication implementation using JWT and bcrypt.

WORK EXPERIENCE

Human Resources Manager · Huzhou Agriculture and Rural Affairs Bureau Jun 2022 – Feb 2024

- Managed full employee lifecycle including hiring, onboarding, payroll, and retirement; developed strong understanding of compensation and workforce systems.
- Coordinated compliance reporting and process improvement across departments, presenting findings clearly to senior stakeholders.

Water Resources Manager · Yuyue Town Government Sep 2016 – Jun 2022

- Oversaw water quality monitoring and environmental protection for 11 villages, working extensively with large datasets and field reports.
- Generated regular technical reports for non-technical stakeholders; led multi-agency coordination for ecological restoration projects.

EDUCATION

Master of Information Technology – First Class Honours · University of Auckland Feb 2024 – May 2026

Master of Public Administration · Zhejiang University Sep 2018 – Jun 2023

Bachelor of Agronomy · Zhejiang University Sep 2010 – Jun 2015

COMMUNITY & VOLUNTEERING

Conservation Volunteers New Zealand (tree planting) · **Earth Action Trust** (waste management) ·

Fair Food NZ (food rescue)

INTERESTS

Avid long-distance runner and marathoner exploring Auckland's coastal trails — which directly inspired the Auckland Running Route Planner project.
